**Letter of Closure  
for  
Letter of Deficiency**

Re: West Alton Brook I Dam #090.01 in Gilford  
Letter of Deficiency (LOD) DAM #090.01  
Issued on April 11, 2002

Dear Mr. Scribner:

Based on a file review of the above referenced dam, the Department of Environmental Services (DES) has determined that the referenced LOD will be closed. The LOD closure is a result of the dam being reclassified to a non-menace "AA" structure on December 5, 2002. It should also be noted that this dam will not be inspected on a regular basis as was noted in the December 20, 2002 letter.

Though we can not require you to comply with this LOD due to the current classification, we strongly urge you to consider completing the repairs, as indicated in the LOD, to ensure the longevity and stability of your structure.

If you have any questions or comments, please contact Nancy McGrath at 603-271-3406 or write to the Water Division at the address listed above.

Sincerely,
